

Technical Specification of Concentrated Grapefruit Juice

Product: Frozen Concentrated Grapefruit Juice (*Citrus paradisi*)

R.N.E.: 05000832

R.N.P.A.: 05009705

Nº Revision	Come into effect	Description
00	18/8/2023	It comes into effect

TECHNICAL DATA

DESCRIPTION:

Unfermented juice, obtained from healthy, ripe and clean *Citrus paradisi* (grapefruit) fruits, pasteurized and concentrated in a T.A.S.T.E. type evaporator (thermally accelerated short time evaporation) with 3 effects and 5 steps. It does not have additives or aggregates.

The product is suitable for human consumption and is free of foreign matter, toxic substances and pathogenic germs that can cause health disorders.

ORGANOLEPTIC CHARACTERISTICS

Aroma and flavor:	Typical of fresh grapefruits.
Colour:	-
Appearance	viscous liquid

CARACTERISTICAS FÍSICOQUÍMICAS

Refractometric Brix	54 ± 1 (20°C)
Corrected Brix	58 ± 1 (20°C)
Reconstituted Brix	$9 \pm 0,2$
Acidity	7,5 -8,8 as anhydrous citric acid (pH 8,1)
% Pulp suspended in juice	< 3 % v/v
pH of Concentrated juice	2,8 - 3,2
Ratio	6,5 - 7,8
Reconstituted to 9 °Brix	
Amino nitrogen	19 - 23
Vitamin C	45,00 - 55,00
Retained pulp	< 10 in 20 mesh
Foreign materials	Absence

MICROBIOLOGICAL COUNT

Total count:	Max. 1000 ufc/g
Mould:	< 10 ufc/g
Yeast:	Max. 100 ufc/g
Total coliforms:	Not detected
Escherischia Coli:	Not detected

PRESENTATION

The product is presented in reconditioned 200 l barrels, with double bags closed with seals. Each barrel contains 260 kg of juice. The barrels are metal, with removable lids sealed with codes, suitable for packaging citrus juice. They have an external coating of bakeable synthetic enamel and a sanitary internal coating. The bags are made of low-density polyethylene, 80 microns thick. They are food grade, pigment-free and printing-free.

LABEL

The barrels are identified with the following labels:

	JUGO CONCENTRADO CONGELADO DE POMELO
LOTE:	Tambor N°
°Brix:	P
Acidez:	
Ratio:	
Peso Neto:	
COMPOSICIÓN: Pomelos CONDICIONES DE ALMACENAMIENTO: Conservar a: -18°C	
FECHA DE ELABORACIÓN: VENCIMIENTO: 24 Meses desde su elaboración	
Elaborado por: Cooperativa de Transformación, Industrialización, Comercialización, Cítrica de Mocrete Limitada Ruta Nacional 14Km 347 - Mocrete - Corrientes - Argentina www.cooperativaticcim.com - ventas@cooperativaticcim.com	
RNE N° 05000832 RNPA N°	
USO INDUSTRIAL EXCLUSIVO INDUSTRIA ARGENTINA	

SHELF LIFE

The shelf life of concentrated juice is 24 months from its production, stored at -18°C. Shelf life of the product is referred to its microbiological stability. Towards the end of the product's useful life it may undergo slight modifications.

TRANSPORT

Under the same conditions as storage
